

SNOW VOLLEYBALL

USAVolleyball.

SNOW VOLLEYBALL

Snow volleyball is a new discipline in the FIVB and USA Volleyball portfolio, played by teams of three players each plus a substitute player on a snow court (8 m x 16 m) divided by a net. The discipline aims to provide the best experience for spectators through a fun, exciting and vibrant atmosphere.

The 2019 Snow Volleyball World Tour in Austria and Italy marked a first worldwide debut of the FIVB snow volleyball events. In the years to come a series of annual snow volleyball events for both men's and women's intercontinental teams are foreseen.

World Tour Events are sanctioned by the FIVB and organized by the National Federation and/or promoter.

A World Ranking for snow volleyball is implemented from the 2018/2019 season and onwards. Snow Volleyball exhibitions can also be organized upon approval given by the FIVB. More information about snow volleyball can be found here: <https://www.fivb.com/en/snowvolleyball>
