

USA Volleyball is excited to announce that we have partnered with VolleyStation to implement digital scorekeeping. We will be utilizing this method of scorekeeping during the Sunshine Classic on all courts.

It is particularly IMPORTANT for ALL coaches and players to review the material below before the event begins.

Step by step guide:

Please note: We will have a VolleyStation representative available on call during the duration of the event, along with officials and event staff trained and available for any questions, concerns or technical difficulties.

We appreciate your willingness to continue implementing this new system with us and if you have any feedback it is always greatly appreciated!

We look forward to seeing how we can use this opportunity to better serve our athletes, teams and officials.
