Adding Players:

TIPS: For adding players to your team roster, you must first add them to your club using the steps below. This allows for AES to verify that these athletes have the correct, verified “Adult Player” membership.

IMPORTANT: If you skip the step of adding the player to the club before the team, then they will not pop up on your roster, so it is important to follow the steps below either in the “[Add Existing USAV Coaches/Participants to Your Club](#) directions” or the “[Add New Members to Club](#)” instructions

These are two ways to add players to your club and team roster:

Option 1: Are players on your team currently registered to coach or play with a different team? (E.g. Coaching for a junior club) If a player on your team is also coaching for a club, they may already be entered into the AES system. Add them to your club using the [Add Existing USAV Coaches/Participants to Your Club](#) directions.

IMPORTANT:

If you are unsure if they are affiliated with a junior level club, then reach out to membership@usav.org . This will avoid creating duplicates within the system.

Option 2: If your players don’t already exist in AES, you can use the [Add New Members to Club](#) instructions

Please reach out to membership@usav.org with any issues throughout the registration process!
